Graph theory package for `Giac/Xcas`

Luka Marohnić

May 25, 2018

Contents

1 Introduction **2**

2 Constructing graphs **2**
2.1 From scratch 2
2.2 Special graphs 2
2.3 Random graphs 2

3 Modifying graphs **2**

4 Import and export **2**
4.1 Saving graph to a file 2
4.2 Loading graphs from files 2
4.3 The `dot` file format 2

5 Graph properties **2**

6 Traversing graphs **2**

7 Visualizing graphs **2**

1 Introduction

2 Constructing graphs
